

Inflectional Endings

Verbs (Action Words)

simple form	-s form <i>-s, -es</i>	present participle <i>-ing</i>	past tense (regular) <i>-ed</i>	past tense (irregular)	past participle
start	start s	start ing	start ed		was started
swell	swell s	swell ing	swell ed		were swollen
mean	mean s	mean ing		meant	has meant
stand	stand s	stand ing		stood	have stood
go	go es	go ing		went	had gone
try	tr i es	tr y ing	tr i ed		
fly	fl i es	fl y ing		flew	was flown
like	lik e s	lik ing	lik ed		
ride	rid e s	rid ing		rode	were ridden
pet	pet s	pet t ing	pet t ed		
get	get s	get t ing		got	has gotten

Adjectives and Adverbs (Describing Words)

positive form	-ly form <i>-ly</i>	comparative (regular) <i>-er</i>	superlative (regular) <i>-est</i>
quiet	quiet ly	quiet er	quiet est
tidy	tid i ly	tid i er	tid i est
nice	nic e ly	nic er	nic est
big	big ly	big g er	big g est

Directions for assembling the “Inflectional Endings” chart: Use white cardstock to print the chart cards. Please note that some of the cards contain color, so colored ink will need to be available. Laminate the sheets, cut out the chart pieces and heading cards, and use wall-safe tape to assemble the chart as illustrated. You can use laminated die cut letters to add the “Inflectional Endings” title and smaller letters of a different color for the headings “Verbs (Action Words)” and “Adjectives and Adverbs (Describing Words).”

As a variation to using wall-safe tape to attach chart pieces that will be removed and reinserted by students (e.g., the inflectional endings, the correct form of a verb or adjective or adverb in the sentences towards the bottom of the chart), you might instead attach StikkiCLIPS beneath the headings and elsewhere as needed to rest the word, letter, and suffix cards on.

Word cards can be taped to the wall and a clip inserted next to each word that inflectional endings will be added to (-s or -es, -ing, -ed, -ly, -er, and -est). For words whose final *y* is changed to *i*, whose final *e* is dropped, and whose final consonant is doubled before adding an ending, you will need two clips beside the taped card that inflectional endings will be added to.

As an example for **changing a final *y* to *i***, the letters *tr* might be taped to the wall and a clip next to it would be used to hold the letter *y* to form the word *try*. A student (or the teacher) would replace the *y* with *i* on the first clip, and the inflectional ending *-ed* might be inserted on the second clip to spell the word *tried*.

As an example for **dropping a final *e***, a card with the letters *rid* could be taped to the wall and a card with the letter *e* inserted on the clip next to it to spell the word *ride*. When adding the ending *-s* to the word, the *e* would not be removed, while it would be removed when adding the ending *-ing*.

As an example for **doubling a final consonant**, the word *pet* could be taped to the wall and an extra *t* inserted on the clip next to it before inserting the *-ing* (or *-ed*) endings on the second clip.

Blank cards are also available for teachers to record spelling words that inflectional endings can be added to. After laminating the cards, a permanent sharpie can be used to record the spelling words. Your students' names could even be printed on the blank cards to use in the sentences at the bottom of the chart. Note that there are several ways to erase permanent marker from laminated surfaces. One popular method is by scribbling over the writing with a dry-erase marker and then using a paper towel to remove all the ink.

Mandi	will	start	her	chores	early.	future tense
The	children	start	their	chores	early.	present tense
Kingston	starts	his	chores	early.		present tense
Jessica	is	starting	her	chores	early.	present tense

Michael	will	go	to	the	store.	future tense
Michael	goes	to	the	store.		present tense
Michael	is	going	to	the	store.	present tense
Yesterday,	Michael	went	to	the	store.	past tense
Michael	had	gone	to	the	store.	past tense
My	friend	is	quiet.			
She	talks	quietly.				
She	is	quieter	than	most	people.	
She	is	the	quietest	person	I	know.

“Inflectional Endings” chart: The “Inflectional Endings” chart will be used to familiarize students with the different **forms of verbs** (simple form, *-s* form, present participle, regular past tense, irregular past tense, past participle) and the **comparative and superlative forms of regular adjectives and adverbs**. Essentially, students will learn what happens to verbs when the inflectional endings *-s* or *-es*, *-ing*, and *-ed* are added to them and how the endings *-er* and *-est* can be added to the positive form of regular adjectives and adverbs for comparison purposes.

They will learn that when a word ends with a consonant and *y*, you change the final *y* to *i* unless the ending begins with an *i* (fly + *es* = flies, fly + *ing* = flying); that when a word ends with a consonant and a silent *e*, you drop the final *e* before adding an ending that begins with a vowel (store + *ing* = storing, store + *s* = stores); and that when a one-syllable word (or a word that is accented on the last syllable) ends with one vowel followed by one consonant, you double the final consonant before adding an ending that begins with a vowel (shop + *ing* = shopping, for-'get + *ing* = forgetting, shop + *s* = shopps).

In addition, they will discover that the past tense of a verb is not always formed by adding the ending *-ed*. Instead, some verbs are irregular, like the past tense of *go*, which is *went*, or the past participle *gone*. *Gone*, as with other past participles, would be used when it follows an auxiliary verb (helping verb) like *was*, *were*, *has*, *have*, or *had*. As can be seen from the chart illustration, these helping verbs have been colored, including the helping verb *will* which can be used before the simple form of a verb to indicate future tense.

Besides learning about inflectional endings, the chart will also be used to study past, present, and future tense and will be used to help students learn several words from *Bible History for Children and Youth (Text and Study Guide)* that are not classified as sight words and that cannot be easily sounded out.

Note: The top half of the chart will be used for **verbs** (*-s/-es*, *-ing*, and *-ed*), the middle part for **adjectives and adverbs** (*-ly*, *-er*, and *-est*), and the bottom half for forming sentences where different forms of words are used in context.

Instructions for using the “Inflectional Endings” chart:

1. Add inflectional endings to words.
 - **INFLECTIONAL ENDINGS:** Add the inflectional endings *-s* or *-es* and *-ing* to each root word. Add *-ed* to regular verbs. If a verb is irregular, identify the irregular past tense and past participle form. Add the endings *-ly*, *-er*, and *-est* to adjectives and adverbs.
 - **CHANGING A FINAL Y TO I:** Follow the “Changing a final *y* to *i* rule” below for words whose final *y* must be changed to *i* before adding an ending.
Changing a final *y* to *i* rule: When a word ends with a consonant and *y*, you change the final *y* to *i* unless the ending begins with an *i* (*-ing*). (fly + es = flies; fly + ing = flying)
 - **DROPPING A FINAL E:** Follow the “Dropping a final *e* rule” below for words whose final *e* must be dropped before adding an ending that begins with a vowel (*-ing*, *-ed*, *-er*, *-est*).
Dropping a final *e* rule (Dropping Rule): When a word ends with a consonant and a “silent *e*,” drop the final *e* before adding an ending (a suffix) that begins with a vowel (*a*, *e*, *i*, *o*, or *u*). Do not drop the final *e* when the ending begins with a consonant. (store + ing = storing; store + s = stores)
 - **DOUBLING A FINAL CONSONANT:** Follow the “Doubling a final consonant rule” below for words whose final consonant must be doubled before adding an ending that begins with a vowel (*-ing*, *-ed*, *-er*, *-est*).
Doubling a final consonant rule: When a one-syllable word (or a word that is accented on the last syllable) ends with one vowel followed by one consonant, double the final consonant before adding an ending (a suffix) that begins with a vowel (*a*, *e*, *i*, *o*, or *u*). Do not double the final consonant when the ending begins with a consonant. (shop + ing = shopping; for-’get + ing = forgetting; shop + s = shopps)
2. After adding the endings *-ly*, *-er*, and *-est* to adjectives and adverbs, give clues like those listed below and let students identify the form of the word you are referring to:
 - In a quiet manner/way (**quietly**)
 - Is more quiet than her brother (**quieter**)
 - Quieter than all others (**quietest**)
3. Identify the different forms of verbs—simple form, *-s* form, present participle, past tense (regular and irregular), past participle.
4. Identify the different forms of adjectives and adverbs—positive, regular comparatives and superlatives.
5. While looking at the chart, help students to identify the different forms of verbs and of adjectives and adverbs by asking random questions like, “What is the present participle form of *start*?” “What is the superlative form of *quiet*?”
6. Read the sentences and insert the correct form of the verb or adjective or adverb.
7. Identify sentences in the past, present, and future tense.
